Did you know that quality of housing directly affects health problems such as chronic disease and injury?

That's why Rebuilding Together Kansas City is on a mission to solve unsafe and substandard living conditions in our community. We are transforming the homes and lives of low-income neighbors by making essential repairs to help them stay in their homes. We tackle projects they could not otherwise afford or do themselves, including (but not limited to) wheelchair ramps, handrails, low-rise steps, deck repairs, grab bars, and much more.

We're serving some of our **most vulnerable neighbors.**
